Both fonts are free on **Google Fonts** and available in Canva. Search **Cormorant Garamond** and **Jost** in the font picker — they'll appear instantly.

04 — HOW TO ADD TO CANVA

1 Open Brand Kit

Go to **Brand Hub** → **Brand Kit** (Canva Pro). This saves your colors so they appear in every design automatically.

2 Add Brand Colors

Click **+ Add color**, then paste each hex code directly. Add all 5 colors plus your 3 gradient stops.

3 Add Brand Fonts

In Brand Kit, under Fonts, search **Cormorant Garamond** (headlines) and **Jost** (body). Set heading weight to Light, body to ExtraLight.

4 Build the Gradient

Select any element → **Color** → **Gradient**. Set stop 1 to **#E8B4A0**, stop 2 to **#A85C52**, stop 3 to **#7D3A4A**. Direction: 135°.

5 No Pro? No problem

In any design, click an element's color → click **+** in the color picker → paste a hex code. It saves to that design's palette.

Keep this open while you design.
